Cyber Risk Scorecard

Carefully consider each question and select the response that best represents your organization's cybersecurity practices. Award 5 points for "No" and "Unsure", and 0 points for "Yes". Total your points after answering all 10 questions to determine your cyber risk exposure.

	Does your healthcare business...	Yes	Unsure	No	Score
1.	Have a designated employee or team responsible for cybersecurity?				
2.	Regularly conduct cybersecurity trainings for all employees?				
3.	Have documented cybersecurity policies and procedures in place?				
4.	Does your healthcare business regularly back-up & store critical patient data?				
5.	Use MFA (Multi-Factor Authenticators) to access sensitive systems and data?				
6.	Regularly update or perform vulnerability assessments on medical devices?				
7.	Have a budget or resources allocated for ongoing security initiatives?				
8.	Allow for caregivers to use personal devices to access patient information?				
9.	Ensure that employees only have access to the data necessary for their roles?				
10.	Have a contingency plan for ensuring continuity of care in the event of an attack?
