

## PAYROLL SERVICES

### Fast, Easy, Secure Payroll to Support Your Staff:

As a business leader, you are passionate about running your business and serving your clients - not about the hassle of payroll. With our industry-leading cloud software, you can stay focused on providing quality healthcare while quickly and easily managing your team's payroll.

**The best part is that our team is here to help you every step of the way and take many of the administrative burdens off your shoulders as your trusted partner.**

### FAST & EFFICIENT

We support the technology, assist you with streamlining processes, and provide guidance on regulatory requirements while you have continued oversight: You can quickly review timesheets and access reports, and even see the status of your payroll in real-time.

### SAFE & SECURE

Access to payroll data is granted to individuals in your organization as needed, and you can even control what data, fields, and reports users can see. Everything is safe, and your team only sees the data they need, helping you remain compliant with HIPAA and other regulations.

## ALL POWERED BY AN INDUSTRY-LEADING PLATFORM

We have chosen PRISM HR's industry-leading tools to offer several advantages through our payroll solutions:

- Time and cost savings from reallocating payroll-related tasks
- Guidance on regulatory best practices
- Access from anywhere, whether at a computer or visiting patients in your community
- Easy-to-use manager and employee interface
- Expertise at your disposal to provide training and answer questions for you and your employees
