

EMPOWER

PROJECT DEFENDER

Smart Technology that
Saves You Money:

HOW IT WORKS

About 10% of claims could receive an ADR (Additional Documentation Request), and failure to provide an adequate response could lead to as much as \$5,500 per month, per claim in recoupment expenses.

Empower's proprietary and customizable solution, Project Defender, allows you to **proactively manage the quality of charts** through machine learning to **strengthen your documentation and preparedness, if and when an audit occurs.**

Documentation & EMR updates are input by your team

Filter by location & practitioner to target training

Visualize your data to identify at-risk trends

Ongoing machine learning of your EMR data

Quickly address issues & estimate savings

Empower-supported education & coordination available

HOW IT HELPS

- Improved Chart Quality & Compliance, Including Disease Specifics
- Understand Your Exposure to Recoupments Over Time
- Adjust to Trends and Changes with Limited Financial Impact
- Streamline Your Ability to Continuously Monitor & Improve
